THE WISENT ENCLOSURE

- the protected area of the wisent enclosure is located in the Tribeč mountains;
- the only facility specialized in wisent breeding in Slovakia
- the wisent became extinct long time ago - according to legends, the last slovak wisent was shot on the hunt by king Matej Korvín (Matthias Corvinus) in 15th century
- the enclosure is administrated by Lesy SR (Forests of the Slovak Republic)
- in 2004, it was artificially naturalised in the Poloniny National Park – it can be seen again in the wild after several centuries
